

2019 Dedicated to Learning Summer School
Tentative Course Offerings at the WHS Campus

Dedicated to Learning is pleased to offer the following courses for the coming 2019 Summer Session. All classes are held on the Walnut High School Campus. Online classes, while based at Walnut High School, are conducted exclusively in a virtual learning environment utilizing the Canvas and/or Google Classroom course management platform. These classes will be available when the registration window opens February 25, 2019 at 6pm. The Registration Window Closes Friday March 8, 2019. Courses are not filled as first come first served. Any application submitted by the deadline will be considered to allow families to choose which course is best for their student. Our courses are available to both students within the WVUSD as well as from surrounding school districts.

If you have any questions about a course, or if the course is right for you, please contact us (whs@dedicated2learning.org) or speak with you school site GLC / High School Academic Counselor for additional guidance.

Students can take a maximum of 1 “In-Seat” Course (10 Credits) AND 1 Online course (5 Credits) . **Students are responsible** for meeting course pre-requisites when completing the application process in order for enrollment to be valid. Students submitting *invalid* applications will be dropped from the course, **without a refund**. Course offerings may change prior to registration and courses may also be cancelled due to lack of enrollment. Please thoroughly review our 2019 Brochure for additional information prior to submitting your registration. Both the brochure and registration link will be available at www.dedicated2learning.org Friday 3/22/19.

Please keep in mind that science and math courses are demanding and compress a full school year of material into a 6 week summer session. They require a substantial study time commitment outside of the school day. Students taking science or math courses for the first time (original credit) should consider themselves to be strong in these areas.

***A \$20 science lab fee will be collected by the teacher during the 1st week of school for necessary course materials for Biology, Chemistry and Physics classes. Instructors will begin collecting this lab fee the first week of school.**

Math Courses	Pre-Requisites	Credits	Tuition
ALGEBRA 1	Satisfies Alg. 1 State Diploma Requirement.	10	\$600
ALGEBRA 2	Grades 9-12 (No Pre-IB 9th graders) and “B” or better in Geometry and Algebra 1. CSU/UC A-G Approved	10	\$600
