

# ONLINE HEALTH ORIENTATION 2019

---

Welcome to Summer School Online Health 2019. This information will help you log on and navigate the Online course. **The class will officially begin June 10<sup>h</sup> and end July 18<sup>th</sup>.**

Our course will have both access to an online textbook and a traditional textbook. If you prefer to use the online links I will provide for each lesson, you will not need to check out a book. If you prefer a traditional textbook, you may check one out in the WHS Front Office Monday June 10 after 10:30 am. If you try the online version and change your mind, you can check out a book in the office at a later date.

WVUSD tests students hearing as part of the Health course. This will be done Monday June 10 between 1 – 2 pm in the WHS Library. If you can, please come and take your 5 minute hearing test. **It is not mandatory as some of you are out of the state and even country.** If you cannot make it, the school nurse will see you during the year.

Mr. James will also be in the WHS Library Monday June 10<sup>th</sup> from 1-2pm to provide a tutorial on Canvas and help you set up your account. If you have difficulty this weekend signing up – this is the time to stop by and let me help you get logged in successfully.

**Please remember, if this is your first virtual course, communication is key. Treat communicating with Mr. James just like you would for a traditional in-person course. If you have any difficulty, please reach out as soon as possible. Do not wait. Occasionally we have a little difficulty signing up a student, do not panic. Just let us know the issue and we will work together to keep you caught up and successfully registered in the class. If you need help:**

**[mjames@wvusd.k12.ca.us](mailto:mjames@wvusd.k12.ca.us)**

At the end of this orientation, you should:

1. Be signed up for our course on Canvas
2. Be able to navigate the basics of Canvas
3. Know where to go if you need help.
4. How to communicate with your teacher.
